Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Wednesday 18 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Fine with warm sunshine for most. Western Pennines likely cloudier.

Today:
Fine and dry with warm sunshine for the majority, although some patchy cloud possible later. A much cloudier start across some western Pennine areas, however, and likely followed by dull conditions for much for the day as cloud persists. Breezy. Maximum temperature 23 deg C (73 deg F).

Tonight:
Winds easing. Cloud thickening from the northeast through the evening, with outbreaks of rain or drizzle possible. Also staying cloudy in the far west, with clearer spells possible in between. Minimum temperature 10 deg C (50 deg F).

Thursday:
Generally cloudy, although a few breaks could give the odd brighter spell. Many parts dry, although some drizzle continuing in the northeast, with the odd light shower also possible elsewhere. Maximum temperature 18 deg C (64 deg F).

Outlook for Friday to Sunday:
Warm Friday, with sunny intervals and variable cloud, thickening later. Rain overnight clearing to showers Saturday, and rather cloudy. Uncertain detail Sunday, but likely cloudy with heavy showers or rain.
